

Titan™ Sub-A15 MK II

Ultra-Lightweight Subwoofer

A new addition to the legendary Titan series, Wharfedale Pro introduces a compact, high-output active subwoofer that matches perfectly with Titan Active full-range speakers. The Titan SUB-A15 MKII is a light weight yet powerful speaker capable of reaching high SPL levels. Powered by an ultra-efficient amplifier, Titan SUB-15A MKII produces 600 watts of peak power with a kicking low-end, ideal for performances that require extra bass reinforcement. The frequency range and crossovers of the Titan SUB-A15 MKII have been expertly tuned to provide dynamic low-end sound. A specially designed 15" high output woofer is housed in a new Optimally-vented cabinet, insuring a sleek appearance that matches performance. Weighing just 57lbs this subwoofer can be handled and transported with ease. Whatever the venue, you can trust the Titan SUB-15A MKII to deliver extended low frequency into your performance.
